1. Description

KCEC McNamara Field Hanger scenery for flight simulator 2004 or FSX.

For FSX set the scenery complexity to normal.

2. Install

Double click the yellow piper or exe to start self installer. Next open the scenery library from the options section. And add the **KCEC McNamara** folder.

3. Instructions

There are 2 hangers located at McNamara Field. Type the airport code KCEC to locate airport in your game. Both Hangers are high quality and made with real photos from the real hanger. Including the gas station.

To open the hanger doors dial in 111.10 on your active nav 1 radio.

Second hanger is 111.20.....

WAIT UP TO 60 SECONDS FOR DOOR TO START MOVING!

4. Remove Product

1. Go to start control panel programs and features to uninstall.
